

QUESTIONS PERMITTING MULTIPLE RESPONSES

This table presents results for questions that permitted multiple responses. **N** shows the number of departments that selected a particular option. **Percent of Cases** shows, of all of all departments that made any response to the question, what percentage of them chose this particular option. For example, in question B4, 83% of the respondents who say they offer any BA degree in classical studies offer Classics specifically as a BA degree. Answers in this section are sorted from highest to lowest percent of cases.
