Suetonius’ *Lives of the Caesars* is a controversial but nonetheless influential work, one that has profoundly shaped modern perceptions of Roman society. And where else can your students read that Augustus had rotten teeth and wore platform shoes to make himself look taller?

This reader features: • 527 lines of unadapted Latin text selections from each of the *Lives of the Caesars* and the entire *Life of Horace* • compact but comprehensive introduction to Suetonius’ life, genre, method, style, and achievement • notes at the back • full vocabulary
